

DIRECT FIX WALL BOARD

This gypsum wall-board has been modified to reduce sound through joining walls and an ideal product for properties with noisy neighbours. The unique 4 layer composite of Acoustiboard offers a high level of sound insulation through a dividing wall if you are looking to treat with a direct fix application.

Acoustiboard 4 is made up of various layers to insulate your wall and from noise and vibration. Always check and be confident of the structural integrity of the wall you are fixing onto.

	Airborne Rating	48 dB $D_{nT_w} + C_{tr}$
	Thickness	30mm
	Sheet Dimensions	1.18m x 1m
	Area	1.18m ²
